

# STONY PLAIN SUN.

VOLUME TEN

STONY PLAIN, ALBERTA, THURSDAY, DEC. 26, 1929

Whole Number 490

\*\*\*\*\*

**A Happy and Prosperous New Year**  
to All is the hearty and sincere  
wish of  
**Stony Plain Hardware,**  
A. E. Michael. Roy Alton.

\*\*\*\*\*

**Happy Greetings**  
at this festive season, and may  
you have a Bright and Pros-  
perous New Year.

\*\*\*

**E. H. Hidgeon,**  
Buick-Pontiac Motors, Stony Plain.

**H-O-C-K-E-Y !**  
**STONY PLAIN RINK,**  
**Saturday Night, Dec. 28th**  
**at 8.30 Sharp.**  
**Stony Plain versus**  
**The Navy, Edmonton.**

**TOOK SODA FOR STOM-  
ACH FOR 20 YEARS.**

**S**EALED TENDERS addressed to the undersigned and endorsed "Tender for alteration and additions and addition to the Public Building at Edmonton, Alberta," will be received until 12 o'clock noon, Thursday, January 28, 1930, for alterations and addition to the Public Building at Edmonton, Alberta. Plans and specifications can be seen and forms of tender obtained at the office of the Chief Architect, Department of Public Works, Ottawa, the Resident Architect, Customs Bldg., Winnipeg, Man., the Resident Architect, Post Office Bldg., Regina, Sask., the Resident Architect, Assn. Receiver General Bldg., Calgary, Alta., the Caretaker, Public Building, Edmonton, Alta., the Resident Architect, Post Office Building, Victoria, B.C., and the Builders' Exchange, 615 West Hastings Street, Vancouver, B.C.

"For 20 years I took soda for indigestion and stomach gas. Then I tried Adlerika. One bottle brought complete relief."—Jno. B. Hardy.

Adlerika relieves GAS and sour stomach in TEN minutes! Action BOTH upper and lower bowel, removing poisons you never knew were there. Don't fool with medicine which cleans only PART of the bowels, but let Adlerika give stomach and bowels a REAL cleaning and see how good you feel. J. F. CLARKE, Druggist.

The Department and in accordance with the conditions set forth therein. Each tender must be accompanied by an accepted cheque on a chartered bank payable to the order of the Minister of Public Works equal to 10 p.c. of the amount of the tender. Bonds of the Dominion of Canada or bonds of the Canadian National Railway Company will also be accepted as security, or bonds and a cheque if required to make up an odd amount.

By order,  
N. DESJARDINS,  
Acting Secretary.  
Department of Public Works,  
Ottawa, December 18, 1929.

## A Burglar Scare

Stony Plain ain't had a burglar scare since the 'Arm-bruster' safe was blown open four years ago; so somebody started something when they telephoned the Police detachment at an early hour Sunday morning that suspicious characters were haunting the lanes in the business section.

A posse headed by Corp. Moses was quickly on the scene, and made a thorough search of the down town section; but by this time the burglars (if any) had fled the coop, and the Corporal and his assistants gave up the search.

At that, an enterprising burglar might have been able to make a haul, as the Police found the front doors of two of Stony's prominent business places to be unlocked, with one door standing a little ajar.

A warning was sent out a short time ago for merchants in places near the big centres to take every precaution against having their places burgled, the good roads we have at present facilitating an easy getaway.

## Hockey News

A hockey game which had been looked forward to with interest was the contest between the local Seniors and Juniors which took place on Thursday night. John Miller was part-time umpire, and during the play Coach Lory gave the light weight players a chance to show their skill by giving them short intervals with the Juniors. The Seniors won, but didn't find the game as easy as expected.

Hockey Juniors played the Winterburn team on local ice on Sunday afternoon and goose egged the visitors at the final score. Winterburns are a husky bunch of players, but their goal shooting availed them naught, owing to the deftness of Stony's goal keeper, Louie Miller. Stonys played their usual good combination game, easing off when they were 5 goals to the good. Captain Clarke has a nifty bunch of speedy young players whose stick-nardding is well worth watching.

Stony's line up: L. Miller, G. Clarke, G. & John Miller, H. Trapp, W. Miller, A. Willie, E. Lory, E. Dannbauer.

A return match is being played today on Winterburn rink.

## With the Curlers

The opening event of the local curling season was concluded Thursday last, when the knights of the besom and stone, headed by President McCulla defeated the outfit headed by Vice Pres. Outway. The finish lacked the interest usually shown by the gallery in these events, as the result had been a foregone conclusion and the victory of the president's team conceded. The date of the banquet will shortly be announced.

\*\*\*\*\*

## Greetings,

\*\*\*

To all our customers, both old and new, we sincerely wish Health, Happiness and Prosperity during the coming year.

\*\*\*

**Hardwick's,**  
The House of Quality.

\*\*\*\*\*

## A New Year Wish.

\*\*\*\*\*

At this session it is our pleasant duty to express to our customers and friends the appreciation we feel for their patronage during the year now closing. To them and all our friends we sincerely wish a full share of prosperity thruout the New Year.

\*\*\*\*\*

**J. F. Clarke,**  
The Rexall Store, Stony Plain.

## BARGAINS IN

## Second-Hand Machinery.

- 10-20 Titan, in good shape.
- 4-bottom John Deere Tractor Plow.
- 20-run Double-disc Massey-Harris Drill; as good as new.
- Old Dominion Wagon.
- 6-Horse McCormick-Deering Engine, in good shape, guaranteed same as new.
- Small Engines, from 1 1/2 to 5-horse; all prices.
- One Harrow Cart. One 8-inch Grinder.

**Louie Wudel, I.H.C. Dealer**  
STONY PLAIN.

## The Old Year and the New

The old year is dying—it may be dead, passed into the limbo of the unrecalibrable past, before these words appear in print. A new year dawns, with all its hopes and fears, its possibilities for good or evil, its vista of 365 days of opportunity for each and every individual.

With the passing of the old year it is customary to take a swift backward glance in an endeavor to sum up its achievements, to realize its mistakes, to note those movements and developments which make for progress or point to retrogression, in order that from observation and study of past events we may carry profit into the future.

This old custom is a good one. Whether we are prepared, or not, to accept the extreme doctrine of Evolution,—that man descended from the ape,—or still adhere to the Bible story of creation, the vast majority of people do believe that God and nature intended that man should grow in stature, in intelligence, in power; that there should be a steady evolution; that progress should be made in the light of past experiences. Nothing in nature stands still; it either grows and improves, or declines and dies.

Viewing the year 1929 in this critical way, and now enjoying the advantages of that hindsight which is so much clearer than foresight, what does the year's events teach us? What lessons can we carry into the new year with profit to ourselves and to the advantage of our country and the world?

Thanks very largely to the onward march of medical science, and the untiring patience of the research workers of the world, the old year was not marred by any large epidemics of disease. To a greater extent than ever before people have accepted the doctrine that it is better to remove causes of disease, and adopt measures of protection against disease, than it is to confine our efforts to the cure of disease after it has made its appearance. As a people we will be wise if we even more systematically and vigorously follow this course throughout 1930. It has been demonstrated with increasing force that an ounce of prevention is worth a pound of cure. And this old adage applies to all evils as well as to disease.

During 1929, Canada witnessed a greater development of its wealth of natural resources and a consequent larger expansion in industrial activity and in its trade and commerce than in any previous twelvemonth in its history. Viewing the Dominion as a complete unit, and notwithstanding local setbacks here and there, the old year was one of prosperity for Canada and its people. That prosperity was developed in a large measure through the application of sane policies. Our industrial and commercial growth has been the direct outcome of improved methods and by a nationally aggressive policy of reaching out into all parts of the world for markets in which to sell our surplus products. It is a policy that brought business and prosperity to Canada and at the same time benefited the world at large. Canada will do well to continue and enlarge upon the same policy during the new year.

In the wide sphere of world politics and affairs, Canada, as much as any country, has reason for congratulation over the trend of events. The general acceptance by the nations of the Briand-Kellogg pact outlawing war as an instrument of national policy, the highly satisfactory results of the visit of Premier Ramsay MacDonald to the United States and Canada, and the better understanding and larger scope to the great branches of the English-speaking family, the final withdrawal of British troops from Germany, the developing "will to peace" among all peoples everywhere, mark 1929 as a potent year in the cause of permanent peace through the development of international goodwill. A standard has been set for 1930 to follow and place on an even firm ground.

In Western Canada, in particular, the old year has been a time of testing for the greatest of our great co-operative enterprises. It has been a year of difficulty and constant anxiety for those to whom the management of that great enterprise is entrusted, as well as to every producer and business interest in this country. Fortunately, as the year closes, all indications point to the wisdom of the decisions made at by the Wheat Pool in regard to the ultimate success of the policies decided upon. Confidence in the principles of true co-operation should, therefore, be strengthened and carried as an asset on the first page of the 1930 ledger.

Contrasted with the sound business principles, based on the law of supply and demand, adhered to by the Wheat Pool, the old year has surely taught tens of thousands of people a bitter and costly lesson in regard to the evils of stock speculation. Stock values cannot be boosted indefinitely. Over-inflation can only end in one way,—the bursting of the balloon. There is a streak in our human make-up which leads us to gamble, an intense craving for wealth not earned through our own efforts by work, an overwhelming desire to get something for nothing, or, as it is called, a fallacy. The happy, contented man today who, laughed at by his neighbors as a clown and unduly cautious, invested in Government and gilt-edged bonds, and lost not an hour of sleep when speculative stocks tumbled and wiped out the life savings of thousands of less prudent men and women.

Finally, the old year must have impressed on Canadians a renewed realization of the fact that in their community, provincial and national life, as well as in the large sphere of their international intercourse and influence, there must be maintained that spirit of goodwill toward all classes irrespective of varying political views, racial descent, or religious creeds, and a Christian tolerance towards all, which alone can promote real and lasting co-operative effort and advance the common interests of all. With some minor exceptions, the old year there, in the spirit characterized, the Canadian people throughout 1929. May there be no exceptions whatever in 1930, and Canada and the world will be best thereby.

### Would Know Where Canada Stands

Soviet Ambassador To Great Britain  
Anxious About Relations With  
Dominion

One of the first matters the new Soviet ambassador to Britain, M. Sokolnikoff, wishes to discuss, according to the London Daily News, is the relation between the Union of Soviet Socialist Republics and the British Dominions, notably Canada. Apparently Canada is not anxious for any changes at the present time and in this connection the Russians want to know just where they stand.

Both the Daily Mail and Morning Post are carrying on intensive campaigns against the resumption in relations between Britain and Russia, the Mail asserting that the Soviets

have no intention of honoring their promises and the Post calling for mass meetings to protest against their attitude towards religion.

### Textbooks in Schools

Matter Is Discussed in British House  
Of Commons

The important matter of accurate geographical and historical text books in the schools of the British Empire was raised in the British House of Commons. Rt. Hon. Sir Charles Trevelyan, president of the Board of Education, remarked he did not think he could convene a conference of publishers of schoolbooks in England and the Dominions, as suggested from a Canadian source, but he would be glad to use his good offices to bring the publishers into touch with representatives of the various governments.

Sir Charles said he was not entirely satisfied that the geographical and historical text books now in use were thoroughly up-to-date. He hoped the publishers were paying attention to the recent report of the Board of Education's committee dealing with the matter.

Minard's Liniment For Coughs.

### Will Build Huge Airport

One Of The Best Equipped Airports  
On Continent To Be Erected  
In Winnipeg

One of the best equipped airports on the continent, with facilities for land and sea planes, will be erected in Winnipeg under plans formulated by the special committee of the Industrial Development Board.

Following a meeting of the board and representatives of aircraft companies, J. M. Davidson, secretary of the special committee, announced the plans for the huge airport. Perfectly equipped landing fields will be constructed, Mr. Davidson said, and they will be large enough to take care of the city's requirements for many years to come. Steps are being taken to locate a suitable site for the airport.

### NO BETTER MEDICINE FOR LITTLE ONES

Is What Thousands Of Mothers  
Say Of Baby's Own Tablets

A medicine for the baby or growing child—one that the mother can feel assured is absolutely safe as well as efficient—is found in Baby's Own Tablets. The Tablets are praised by thousands of mothers throughout the country. These mothers have found by actual experience that there is no better medicine for little ones to be found. Once a mother has used them for her children she will use nothing else. "I have ten children," says Mrs. Hutt, Tanook Island, N.S., "I have ten children, the baby being just ten months old. I have used Baby's Own Tablets for them for the past 20 years, and can truthfully say that I know of no better medicine for little ones. I always keep a box of the Tablets in the house and would advise all other mothers to do so." Baby's Own Tablets are sold by all medicine dealers or will be mailed upon receipt of 75 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont.

### Voice Of Marconi Spans Atlantic

Explains Difficulties Of Early Days  
When Inaugurating Radio From  
England

The voice of Eminent Guglielmo Marconi spanned the Atlantic Ocean recently, just as it did the letter "G" 28 years ago on the memorial occasion when a radio signal coming from England was heard for the first time in America.

But unlike that early day when only himself was listening, today an entire nation heard him tell of the difficulties overcome in making the first trans-Atlantic signal faintly audible. He spoke through an extensive network of broadcast stations linked to the National Broadcasting studios in New York.

The voice of the pioneer radio inventor was brought to the United States by short waves, and a special receiver at Riverhead, L.I., was linked by wire to the local studios and in turn to the network.

Dragged Down By Asthma. The man or woman who is continually subject to asthma is limited in his or her life's work. Strength departs and energy is taken away until life becomes a dreary existence. And yet this is needless. Dr. J. D. Kellogg's Asthma Remedy has brought a great change to an army of sufferers. It relieves the restricted air tubes and guards against future trouble. Try it.

### Two Winter Exhibitions

Western Canada Fox Show and  
Western Turkey Show To Be  
Held In Saskatoon

Saskatoon will be the venue of at least two Western Canada shows next year according to reports submitted at a meeting of the directors of the Saskatchewan Industrial Exhibition.

The Western Canada Turkey Show will be held at Saskatoon, February 15-21, inclusive, and the Western Canada Fox Show will take place in Saskatoon next November.

Archie Wilson, president of the local fair board, announced that the new winter fair building, being erected at a cost of approximately \$100,000, will be completed in about a month.

The Saskatoon winter fair will be held March 11-14, inclusive.

Minard's Liniment For Discomforts.

Mother (teaching son arithmetic): "Now, take the Smith family—there is Mummy, Daddy and the baby. How many does that make?"

Bright Son—"Two and one to carry."

### Has Praise For Canada

British Visitor Gives Glowing Description  
Of Canadian Cities To  
Manchester Audience

A glowing description of the general appearance of Canadian cities was presented to the Manchester Geographical Society by George Ginger. After speaking of his impression of the intense loyalty in the Dominion to the British Crown as the ideal of British unity, Mr. Ginger passed on to discuss the general appearance of such cities as Toronto and Hamilton. Here, he said, was every indication of great prosperity and rapid progress. There were no slum areas, but wide, spacious streets, fine trees, large open spaces and parks, and beautiful modern buildings. In the residential districts there were unfenced grass plots level with footpaths in front of all houses, and virtually every house had its verandah, where the people almost lived in the summer time.

There was an absence of any kind of public house or drinking saloon in these cities, which seemed to have a marked effect upon them. No evidence of poverty, vice or distress was to be seen, and the place of the public house seemed to be taken by palatial and comfortable cafes to which whole families went together. There appeared to be no place for men to congregate by themselves, hence most of their spare time was spent with their wives and families.

Each city vied with its neighbors Mr. Ginger went on, in trying to impress its visitors with its importance in some way or another. It was as though Canada had caught the American boastfulness, but there seemed to him no doubt that Great Britain could learn much from Canada.

For one thing there was a strict control of advertising hoardings. In the city these are artistic, neatly framed, and of reasonable size. Moreover, he had not noticed any spoiling of the countryside by big and aggressive sign boards.

Unless worms be expelled from the system, no child can be healthy. Mother Graves' Worm Expeller is an excellent medicine to destroy worms.

### Solved Very Real Difficulty

Rottterdam Looked After Animals In  
Antwerp Zoo During War

During the bombardment of Antwerp, the firing and noise of the shells struck terror into the heart of the animals shut up in the great city Zoo; and, after the city was taken, the difficulty of how to feed the creatures seemed a very real one, when food was short for the people themselves. Then it was that an offer was received from Rotterdam that there would be a welcome given to the animals from the Antwerp Zoo until after the war.

### RAW FURS WANTED

### Burwash Has New Theory

Explorer Thinks Franklin Party Tried  
Twice To Reach Mainland

A new theory which accounts for the fact that the bodies of only about one-third of the personnel of Franklin's Arctic expedition aboard the "Terror" and the "Erebus" have been found was broached by Major L. T. Burwash, of the North-West Territories Branch of the Department of the Interior.

Major Burwash, who has just returned to Ottawa from an 18 months' trip through the sub-Arctic and Arctic regions along the north coast of Canada, thinks the Franklin party made two attempts to reach the mainland from King William Island, after being frozen in at Victory Point on the north shore.

From Victory Point the party, numbering at the time 105 men, has been traced down the west coast of King William Island to Starvation Point on the northern tip of Adelaide peninsula. Bodies of about one-third of the personnel have been found along this stretch.

Persian Balm invigorates every woman, with subtle charm. Delicately fragrant. Cooling and healing. Disperses all roughness or chafing. Makes skin delightfully soft-textured. Every woman should use this peerless toilet requisite. Daintiness—beauty—refinement—Persian Balm achieves these in every instance. Softens and whitens the hands. Promotes clear and youthful loveliness. All women who care for additional charm unhesitatingly choose Persian Balm.

### Use Of Waste Gas

Experiments Under Way In Saskatchewan For Use Of Gas In Connection With Clay Products

Extensive experiments are under way in Saskatchewan in connection with the use of waste gas in the manufacture of clay products. This work will be completed within the next few weeks, when the members of the committee, operating into the future, will draw up their reports for submission to the Department of the Interior.

The first dictionary was one of the Chinese language.

### Wonderful!

"Mrs. Sybil's baby has a cold." Is truly wonderful to treat sore throat, bad cough, cold, croup, whooping cough, and all troubles fully guaranteed, you can't lose, try Good Remedy or money back \$1.50 post paid Agency wanted.

# Water Power Development In Three Prairie Provinces Presages Era of Great Expansion

With four large undertakings at present under construction, which will ultimately produce 445,000 horse-power, hydro-electric development in Manitoba, Saskatchewan, and Alberta is more active than at any other period in the history of these provinces. Two of the undertakings are situated on the Winnipeg River, in Manitoba, and have ultimately designed capacities totalling 325,000 horse-power; another on the Churchill River, in Saskatchewan, will generate 84,000 horse-power, and the fourth on the Bow River, in Alberta, will develop 36,000 horse-power. All four undertakings are being constructed under interim licenses from the Department of the Interior, and the department maintains resident inspecting engineers at each to ensure that the works are safely and efficiently constructed in accordance with the terms of the licence and the Dominion Water Power Regulations.

In Manitoba, the lower of the two new plants on the Winnipeg River is being constructed by the North Western Power Company Limited, a subsidiary of the Winnipeg Electric Company. It is the Seven Sisters Falls, just above the confluence of the White-mouth River and about twelve miles upstream from the town of Lac du Bonnet. The distance in an air-line to Winnipeg is approximately sixty miles. The project embraces a power station to contain six 37,500-horse-power units, a solid concrete masonry dam to regulate the sluices and free spillway to span the river, low dykes on both banks extending several miles upstream, and a rock-cut immediately below the plant to lower the tail-race level and obtain a normal operating head of about 66 feet. Work was commenced in October, 1928, and excellent progress has been made to date. Three units are being initially installed and are expected to be ready for operation under partial head early in 1931. With the completion of the Seven Sisters development the portion of the river flow which now passes down the Pinawa channel to supply the P-nawa plant will be stopped, the plant abandoned, and the entire river flow utilized in the new development.

Further up the Winnipeg River another new project is actively under construction at Nine Falls, by the city of Winnipeg. This site is situated about five miles below that municipality's Point du Bois development and the undertaking comprises construction on both sides of an island a short distance below the falls. The right channel will be spanned by a rock-filled dam while the power station, sluiceway, and spillway dams will be located in the left channel. The power station will contain eight 15,000 h.p. units operating under a head of about 30 feet, two of which units will comprise the initial installation. The general contract for the works was let in June, 1929, and is expected to have the initial installation ready for operation in the latter part of 1931.

Saskatchewan's first hydroelectric development is now under construction at Island Falls, on the Churchill River, a short distance west of the Manitoba-Saskatchewan boundary. Here, the Churchill River Power Company, a subsidiary of the Hudson Bay Mining and Smelting Company, is

building a power station designed to contain six 14,000 h.p. units to operate under a head of about 56 feet. Three of these units are being initially installed. The power station is situated in the main river channel and is flanked to the north by a sluiceway dam, while to the south in a natural depression the main sluiceway dam is located, and in addition several earth cut-off dams require to be built. Construction materials were delivered to the site during the winter of 1928-29, and camps constructed. With the spring, active construction commenced, and has been prosecuted up to the present with expedition. It is expected that power will be available towards the end of 1930 for delivery over a sixty-five-mile transmission line to the Flin Flon mine.

In Alberta, the Calgary Power Company placed in operation on October 22, 1929, the first unit of its new development at the Ghost site on the Bow River, about thirty-three miles west of Calgary. This was the culmination of a very active period of construction which began in August, 1928. The power station which is designed for an initial installation of two 18,000-h.p. units under a head of 105 feet, with provision made for a third of like capacity, is situated in the main river channel and is flanked on each side by a massive concrete dam which spans the river. To the south a hydraulic earth-fill dam extends a distance of 2,000 feet to the main sluiceway dam, while to the north an earth-fill dam connects the structures to high ground. Power from this development will be fed into the company's extensive transmission system which, when complete, will extend from Edmonton on the north to near the International Boundary on the south.

These developments, which will provide large quantities of low-cost electric energy for use in mining, for industry and general commercial and domestic use, presage an era of industrial expansion which is of the utmost importance to the progress of the three Prairie Provinces.

## Old Buffalo Robes

National Museum of Canada Seeking Specimens For Scientific Purposes

The archaeologist of the National Museum of Canada, at Ottawa, is in the market for a most unusual article. He says he wants to hear from people who have very old buffalo robes made from the real "buffalo" properly known as the American Bison. If, on examination of the back or skin side of the robes, not the hair side, they find any sign of paint. It seems that many of the Indians of the plains painted designs and even a sort of calendar on buffalo robes. These are now rather rare as the Indians no longer are able to get buffalo robes and as they have given up most of their old culture, including much of their art of painting on skins.

Even an old torn robe or half of a damaged robe may have upon it painting or painted lines, possibly faded and dim, yet of scientific value and possibly of some commercial value. In case the owner does not care to sell the robe to the archaeologist or under a prohibitive price for it, he can send the science of ethnology a good turn by allowing the painting to be photographed or sketched for the National Museum.

## Revives Old Idea

Sudden death coming to Richard Bartell, 46, heir to the Lord Westbury, has revived discussion of the superstition of a curse resting upon mediators with the tombs of the Pharaohs. Bartell was succeeded by Howard Carter, whose investigation in Egypt disclosed the treasures of ancient Tutankhamen. His is the tenth death among people concerned with the exploration of the old Pharaohs' sepulchre.

## Tree Is Puzzle

One of the strangest trees ever seen in England, is growing at Ives Heath. It is a common willow tree in all points, but from its trunk are growing a mulberry tree, a cherry tree, and a gooseberry bush. It has proven a puzzle to agriculturists in the neighborhood.

## Fish From the North

The Fish Is Clearing House For Big Shipments From Northern Lakes From all directions around The Pas, great loads of fish are coming in for shipment to points in Canada and the United States. Most of the fish that have arrived, recently, have been whitefish and trout. Shipments of pickerel and sturgeon will come in later. The fish are coming in by train and by sleigh. Some consignments have come in by train from Flin Flon and Cold Lake, as well as from Cranberry Lake. A number of fishermen have hauled directly to The Pas by team.

The bulk of the fish will go to the United States markets. The whitefish is especially acceptable in the cities of the republic. The North is being well advertised by these shipments, for, on every one of the big boxes containing fish is printed in large letters "Produce of Canada."

## Find Rare Mineral

Trill Shipment Of Beryllium Is Made From Manitoba

Since the first announcement that beryllium existed in Manitoba was made, there have been numerous inquiries for this somewhat rare substance, according to officials of the Jack Nutt Mines, Limited. A trial shipment of this mineral was made during the summer to New York, and it was found to have a satisfactory metallic content. Since then requests have been received from several European concerns, principally from Germany, as well as a number in the United States.

An effort will be made this winter to determine as to whether beryllium can be obtained in sufficient quantities on the Jack Nutt properties to warrant commercial production and shipment.

## Fire Clay Deposit

Valuable Discovery Is Made Near Aquadell, Sask.

As a possible valuable development along the new line of the Canadian National Railways now being constructed for 50 miles southwest from Mawer, Sask., is a newly discovered deposit of fire clay.

Arthur Bond, Shooter Hill, Sask., who farms about three miles from the new line of the railway near Aquadell, Sask., has investigated the possibilities of this deposit. It is stated to be good material for fire brick clay, pottery and building brick. Reports of the University of Saskatchewan's ceramics department have been favorable.

Vegetation puts back into the air as much water as is carried by all the rivers of the world.

## CANADA'S NEW FINANCE MINISTER

Hon. Charles A. Dunning, whose appointment as the new finance minister for the Dominion was announced by Premier King following a meeting of the cabinet. Mr. Dunning will also continue to administer the affairs of the Department of Railways and Canals as acting minister.

# Pioneering In Northern Areas Responsible For Realization Of Immensity of Our Heritage

## Across Top Of The World

Proposed Air Route From Britain To Vancouver Over Arctic Seas

No official statement was forthcoming at Ottawa in connection with the proposal suggested to Hon. P. C. LaRue, Canadian high commissioner in London, England, by A. G. Watkins, well known investigator of the Royal Geographical Society. According to cables news despatches, Mr. Watkins had submitted to Mr. LaRue a tentative scheme designed to blaze an air route across the top of the world, from Great Britain to Vancouver, B.C.

It was recalled here that when Premier King was in western Canada recently he made reference to such a proposal.

It is understood the immediate activities of Mr. Watkins will be concerned chiefly with exploration of the Greenland ice-cap, with a view to ascertaining the suitability of places in that region for air bases. While information is somewhat indefinite, it is thought the plan calls for a careful investigation which will last for two or three days.

## Catch Giant Sturgeon

Big Fish Is Taken By Fisherman In Northern Lake

A sturgeon six feet long and weighing 120 pounds, a record catch for Northern Manitoba, has been taken out of the waters of Lake Athapuskow by Bert Hayes, well-known northern fisherman.

The catch was made during commercial fishing operations of a group of men at the Hayes' camp near Mile 68 on the Flin Flon railway.

The battle staged before the big sturgeon was successfully landed will go down in north history as a classic. It took the combined efforts of Hayes and a companion to haul the net to shore.

## Egg Laying Contest

The results of the egg laying contest at Agassiz, B.C., for the second week, showed an increase of production of five per cent. over the first week, and the leadership of the pens changed with the University of British Columbia taking the lead, having gained it from third place the previous week.

Waiter—"What will you have, sir?"

Diner—"Anything but a minute steak—I'm in a hurry!"

It is safe to estimate that not more than ten per cent. of the Canadian people have an adequate conception of their own country insofar as its potentialities are concerned. While the many are well posted on Canada's historical past, only the few are intimately acquainted with its immediate present, and fewer still have any idea of its certain future in those directions which mean world prestige.

The fact is, says the Calgary Herald, that for many years Canadians were content to live and confine their whole interest to the southern fringe of the Dominion land area. Agrarian pioneering in Western Canada and mineral prospecting in the northern areas of Ontario and Quebec brought to the masses of the people a vision of something greater than they had believed possible. With the widening of vision came a kindling of the flame of adventure in the minds of wander-lusters and through these men and women we are learning to know that Canada is in all ways a land much bigger and better than our fathers ever dreamed.

And still to the bulk of people up-to-the-minute knowledge of Canadian progress and development is at best but fragmentary and lacking the certitude that makes for conviction. Probably the reason for this is the fact that progress and development within the past decade has been so rapid that opportunity has not offered for a gathering together of the salient facts and the setting down of them in such order, as would make a story accurate and at the same time interesting enough to appeal to the masses. At any rate no Canadian investigator with a writer's pen has yet undertaken such a task.

However, the need, and a real need it has been met by a United States writer in the person of Gurney Ryley Cooper. From his farther distance viewpoint Mr. Cooper seemed to get a truer perspective than came to men having only a close-up view. Also it is likely that by his training as a chess advance agent, theatrical man, wild west show manager and author, he more readily grasped big ideas and visioned them in the larger rather than from small angles. Whatever the reason, it is a fact that Mr. Cooper saw a big thing in Canadian hinterland development and as an author he went after it.

The result is a volume titled "Go North, Young Men." In it the reader travels with the author from Rouyn, in the east, to far northern Alberta and the Territories in the west, stopping here and there along the way, whether the way be by canoe, snow shoe, rail, tramp up along the railway grade in advance of construction, riding in the caboose or by dog sleigh or, as is now the popular method of transport, by aeroplane. Hardy prospectors, navies, the Bushmen and Jesuits of outpost camps, men and women, are met with, along with engineers, geologists, millions reared with their millions to invest—each lending their particular bit of color to the story the author tells. A most wonderful story and one calculated to bring to the minds of the people of Canada such a conception of their country as they have never had before, and one which, even wonderful as it may appear, is still far short of the reality which is yet to be.

In one year, a single oyster can produce 1,000,000,000 new ones.

"Julia, the lock of hair you gave me is not yours. I will never forgive you."

"Well, the verses you wrote to me were not your own."—Buen Humor, Madrid

"How many buttons on your coat?"

"Six."

"If I took off four, what would you have?"

"A thrashing from mother."

—Funtoche, Mexico.

## WORLD HAPPENINGS BRIEFLY TOLD

The \$100,000,000 income tax reduction resolution was signed by President Hoover, at Washington.

France's largest aeroplane, the D-870, passed its initial tests satisfactorily, lifting a load of five tons after a run of 30 meters.

John McGregor, prominent real estate man, was elected president of the Canadian Club of Winnipeg, at the annual meeting held recently.

British United Press is reliably informed that Ludwig Kleinwachter, formerly Austrian consul in New York, has been appointed to represent Austria at Ottawa.

Every one of the 45,000 votes cast in the recent civic elections at Winnipeg, will be carefully examined by a commission investigating legal and illegal plural voting.

Little probability exists at the moment that legislation will be introduced at the coming session of parliament for payment of relief to dependents of prisoners serving time in Canadian penitentiaries.

Cruiser cars equipped with radios may be adopted by the Montreal police department in the near future. Detroit and many other American cities have already established this service and Montreal may follow their example.

A delegation representing the Federated Association of Letter Carriers waited recently upon Hon. P. J. Vondy, postmaster-general, to interview him regarding salaries and working conditions of workers in the postal service.

### The World's Poultry Congress

Canada To Take Important Part In Congress To Be Held In London, England

Preparations for the fourth World's Poultry Congress, which will be held in London, England, in July, 1930, are well in hand. Canada will take a very important part in this Congress. The Dominion is fortunate in having as a leader in poultry matters, Mr. F. C. Elford, the Dominion Poultry Husbandman, who is the president of the World's Poultry Science Association, under whose auspices congresses are held.

Mr. Elford recently concluded a tour of the countries in Europe and the near east, and has returned with the assurance that the great nations of the world are preparing to make exhibits and participate in the presentation of papers on poultry topics.

The London Congress, like the one held in Ottawa, in 1927, will include a livestock exhibit in which hundreds of varieties of fowls and rabbits will be displayed. Canada's exhibit in this section will include several hundred head. The national exhibits for Canada are being prepared by the Federal and Provincial Departments of Agriculture. The purpose of them will be chiefly to illustrate the part being played by education, research and economics in the development of the poultry industry.

The Congress will last for a full week in which five sessions will be held simultaneously. In these sessions papers will be presented and discussed on breeding and incubation, nutrition and rearing, diseases and their control, economics including marketing, education. An elaborate program of excursions and entertainments is being provided for the delegates, a large number of whom it is expected will be from Canada.

Next to grape wine it is said that Japanese sake, or rice wine, is the oldest alcoholic beverage known to man, its use dating back over 2,000 years.

"Adolf, if you flirt with this shameless person, there will be a misfortune."—Lustige Sachse, Leipzig.

W. N. U. 1817

### What a Billion Means

Nice Little Problem To Work Out In Spare Time

It is just as easy to say billion as million. The word has been spoken frequently and familiarly during the recent affair in Wall St. and a public, grown used to large figures, hasn't been so much impressed.

Charles Ransom, lumber man of Memphis, Tenn., turns the microscope of practical imagination on a billion dollars and dramatizes it. Here is how it figures out:

If a billion had been accumulated 500 years before Christ, had not been allowed interest, and had been paid out at the rate of \$1,000 per day every day since, up to and including November 21, 1929, there would still be \$12,868,000 left.

If you don't believe it, figure it out for yourself. And don't forget the leap years.

(By Annebelle Worthington)

A black transparent velvet unrivaled for restaurant and afternoon occasions with its dipping pointed neckline emphasizing the chic femininity of new elegance in mode.

The charming cape collar and jabot is of beige sheer metal cloth knotted at end of becoming open V-neckline. Narrow belt marks higher waistline of molded bodice. Sleeves are slenderly fitted below the elbows.

The classic arrangement of loose hanging panels of skirt, stitched in pointed effect well below the hips, create a youthfully slim appearance.

Style No. 3139 is designed in sizes 16, 18 years, 36, 38, 40 and 42 inches bust. It is really very simple to make, and the saving enormous.

It is tremendously smart in crepe Elizabeth in dark dahlia purple shade.

Another interesting idea, decidedly quaint and pretty, is dull black silk crepe with collar and jabot in egg-shell shade.

Printed sheer velvet in dark brown tones with collar and jabot of harmonizing shade canton crepe is attractive.

Sheer metal cloth is exclusive fabric for formal afternoons and Sunday night occasions, and adapts itself admirably to this model.

Georgette crepe, crepe de chine, crepe Roma and crepe satin appropriate.

Pattern Price 25 cents.

### FLYING MOVIES ARE LATEST THRILLS FOR TRANSCONTINENTAL TRAVELLERS

Cloud Cinemas Made Possible By Symposium Of American Scientific Genius

American inventive genius in the laboratories of several of our largest corporations recently joined hands to make a Jules Verne dream come true.

Only a few years ago anyone who predicted that we would have flying theatres would have run the grave risk of being rushed to the observation ward of the nearest asylum.

Yet the flying movies are here. Within the last two weeks this miracle of modern science has been perfected and regular passengers bound from coast to coast in 48 hours are witnessing motion pictures above the clouds.

Newreels, comedies and super production click off in perfect shape 10,000 feet in the air travelling 100 miles an hour!

The miracles reputed to the ancient magicians seem insignificant when compared with the fact that you may now lounge comfortably in your big armchair, watching a complete motion picture show while flying over the tallest peaks of the Rockies.

Meticulous scientists, working in distant and unrelated laboratories made possible this really astounding achievement. The Edison Lamp

Works of the General Electric Company, built a special lamp to use in the air movie camera; the National Carbon Company provided special Eveready battery equipment and the Duograph Company constructed an extremely light aluminum projector. Universal Pictures Corporation and Transcontinental Air Transport offered the 'planes and pictures.

The unique difficulties in the way of complete success of the flying movies were overcome by patient and skillful research. The Edison Lamp Works had to build a movie lamp of miniature proportions and yet so rugged that it would withstand all shocks. The question of light for the camera was all-important. It was obviously impossible to draw on the light system of the airplane. So the National Carbon Company engineers put together 14 dry cells and hooked them up in such an ingenious way that they operated the air movie show for six hours running.

This symposium of technical brains resulted in the complete success of the flying theatres and from now on air movies will be one of the big thrills of the two day trip from coast to coast.

Alberta Clay Products Company, Medicine Hat, is reported to have sufficient orders in sight to keep the plant fully employed for the next twelve months. It is now running a day and a night shift.

Traveller (to port): "How long will the next train be?"  
Porter: "Engine and six carriages."  
Traveller: "You're smart, aren't you?"  
Porter: "No, sir. Mr. Smart's gone 'ome for 'is dinner."

## SUNDAY SCHOOL LESSON

DECEMBER 29

### FELLOWSHIP THROUGH WORSHIP

Golden Text: "He entered, as His custom was, into the synagogue on the sabbath day."—Luke 4:16.  
Lesson: Nehemiah 8, 1-12; Micah 4, 1, 2; Psalm 122:1-9; Matthew 28:18-20; Hebrews 10:19-25.  
Devotional Reading: Revelation 7, 9-17.

### Explanations and Comments

The Joy Of Being In The Midst Of A Worshipping Multitude, Psalm 122.—Psalm 122-134 bear each the heading "A Song Of Ascents." It is thought that they were pilgrim songs sung by the Israelites on their annual pilgrimages to the Holy City at the time of the religious festivals. "The exultate gems of imagery with which these Psalms are adorned add to their winsomeness—the whole collection yielding us the most pleasing impression of the simple, gracious piety of the Israel of the later ages."

Friends came to the Psalmist and invited him to make one of their party for such a pilgrimage to the temple. He recalls in this Psalm 122, the joy this invitation gave him, his delight at actually standing within the gates of Jerusalem, the Holy City, so compactly built together. How he gloried in actually standing within the line of kings, its tribuna for judgment, and its sacred temple crowning all the heights of the city. With love to Israel and love to Jehovah, there is naturally united a warm affection for Jerusalem, a hearty interest in her welfare.—Pewee.

The Psalmist's heart is stirred to earnest importunity that all shall pray for the praise and prosperity of Jerusalem. "The last four verses of the Psalm breathe the spirit of the noblest, most unselfish patriotism. Not for his own sake, but for the sake of his brethren—the people at large—and for the sake of his temple, and his service, he wishes peace to Jerusalem and calls upon others to wish her peace. With love to Israel and love to Jehovah, there is naturally united a warm affection for Jerusalem, a hearty interest in her welfare."—Pewee.

In full assurance of faith, having our hearts and our bodies purified, let us hold fast the confession of our hope that it waver not; for He is faithful who promised.

And let us consider one another, "taking into account and weighing our neighbors' circumstances, and especially his risks, and this with a view, not to expatiating criticism, but with a view to incite them to love and good works, acknowledging honest endeavor and making allowance for imperfection."

Technical High School For Moose Jaw

The Saskatchewan Government has expressed its willingness to contribute one quarter of the cost of constructing a Technical High School building in Moose Jaw, at a cost of about \$450,000. It is believed that there would be between 500 and 600 students ready to enroll at once.

## WINDOLITE The Improved Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light let strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandas, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold, will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 lbs., while a square yard of glass of ordinary thickness, weighs about 135 to 130 lbs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

DECEMBER 20

FELLOWSHIP THROUGH  
WORSHIP

Golden Text: "He entered, as His custom was, into the synagogue on the sabbath day."—Luke 4:16

Lesson: No. 1

Vive le Carnaval! Vivent les sports d'hiver! In these few words may be summed up the spirit of Quebec in winter-time. Here for many years have gathered lovers of winter sports and frolics from all parts of the western hemisphere.

The ancient capital of Canada is the American continent's metropolis for ski-ing, ski-joring, ski-jumping, tobogganing, bob-sledding, skating, snow-shooting, dog-team driving, curling and hockey, during the winter months, and in addition has a unique attraction to offer the visitor in February when the International Dog Sled Derby annually takes place.

Winter sports activities radiate from the Chateau Frontenac, Quebec's famous hostelry, where Jack Strathdee will again be winter-sports director. This season he has a new attraction to offer during the Ice Pagant, February 12 and 13, when 24 girl members of the Toronto Skating Club will perform an ice-dance to be known as the "Danse Moderne". This will be a veritable "Ziegfeld production on ice."

In all about two hundred skaters will take part in this ever attractive and beautiful Pagant.

A record list of entries is promised for the Dog Sled Derby this season. Arthur Beauvais, driver of the Chateau team, announces that he will have a better team than ever. His new huskies were bred at Caughnawaga, the Indian reservation near Montreal. At the Dog Derby, February 20, 21, and 22, the victor will see such famous mushers as St. Giddard, winner of last year's Derby; Sengul, Norwegian hero of many an epic drive; Frank Dupuis, and many another well-known figure in action for three days over a 123 mile course, mushing 41 miles a day.

Three internationally famous ski-ing instructors will be on the staff of the Chateau Frontenac this winter. They are Ivid Nelson, Hans Gunnarsen, and Orice-Higgs, of Revelstoke, British Columbia. Burnett Burke formerly of the Montreal Amateur Athletic Association, will be instructor at the Chateau's skating rink.

### Know Canada Contest

The Family Herald and Weekly Star, so well known as Canada's outstanding farm and home paper, is launching another of their Know Canada Contest, in which \$3000.00 are being given as prizes. The First Prize is \$1000.00.

Each week four pictures are published and readers are asked to decipher the Canadian past, to offices they represent. It is a most interesting pastime, combining a great deal of real amusement and entertainment, with an opportunity of carrying off a very nice sum of money in prizes.

It is a contest that will interest every one of our readers and details of it can be had for the asking. A letter to the Family Herald & Weekly Star, Montreal, will bring you all the particulars and a sample copy of the paper too and of course it does not obligate you in any way.

### U. F. A. Convention.

The twenty-second annual convention of the United Farmers of Alberta and U. F. W. A. will be held in Central United church, Calgary, Jan. 21 to 24, 1930, commencing at 10 o'clock sharp the morning of the first day.

### Railway Time Table

## Sommerfeld

The United Church was crowded Sunday evening, on the occasion of the Xmas services. The pastor Rev G A Sauder gave the story of "The Other Wise Man," and the choir rendered several fine Xmas anthems.

After the special Xmas service at the United church on Sunday evening the choir held a short session, when Mrs Dr Oatway was presented with a beautiful silver dish in appreciation of her work as organist; also Mr Yeats was given a beautiful box of chocolates for his work as choir leader; and Rev Sauder, on behalf of the church, was presented with a gold piece.

On Tues. next, Dec. 31st, there will be a New Year's Eve dance in the new Mir Lake Community hall. Barth's orchestra.

A young man of Mewasin district for whom the Police had been looking, was arrested and taken to Edmonton, where he was charged before Magistrate McLeod on Saturday morning with the theft of grain, and given two years' suspended sentence.

## Sporting Notes

Stony's Senior hockeyists motored to Strathcona Monday night, to meet Beattys. The Stonys, held the good City team down pretty well, the final score being: Beattys 4, Stony 2. Enders and Rosnau each scored a goal. Line up: Pilcher, Miller, Rosnau, Fuhr, Downs, Clark, McKee, Enders, Callahan, Heichen. The Senior hockeyists have another League game billed for Saturday night, on local ice.

Mr E Heichen, the well-known hockey player and an authority on the rules, is receiving the sympathy and assistance of his friends in his efforts to regain his amateur standing. Eric is said to be planning a trip to Winnipeg, to convince the Executive he broke no rules when captain of Westlock team. If necessary, funds will be raised to defray his expenses.

Geo Miller, who made the sensational play at Sunday's game, has been offered a position on the Seniors.

After a thoro investigation, the Sporting Editor is in a position to know the rumor that the losers of the recent curling contest did not shoot any rabbits for the anticipated Hassenpfeffer banquet. They didn't get any rabbits—the bunnies seen 'em first.

The Grove's Boy hockey team played Whiteburn Saturday on Pinchbrook rink, and beat them 5 to 3. Mine Host Miller has stalled a Marconi Radiogram much to the delight of visitors, when the good gram is coming in from KOA, KSL, KGA, etc. machine has given every satisfaction since installed by the agents, Enders & Baron.

The funeral took place Friday last of Mrs Frances Welbourn, well known before her marriage was Miss Jean McIntosh, and had taught school in Winterburn district and where, for the past years she was active in the Woman's Institute and other work of a similar nature.

Christmas Eve services were held in St Joseph's church by Rev C Keenan.

The concert and dance at night attracted a good crowd.

## Duffield Doings.

The following have been appointed Official Auditors: Jos Best, E Tattersall, A Young.

The following officers were elected at the annual meeting, last week, of the Local W L I: Pres, Mrs W J Taylor V Pres, Mrs Jack Heap Sec-treas, Mrs J Clements Convenors, Mrs Francey, Mrs D Taylor, Mrs O'Sullivan. Mrs McGuire gave a paper on Immigration Laws.

FELLOWSHIP THROUGH WORSHIP

Govt. Luc Pawlyk, as his action against his son for money owing under a mortgage. The son defended the matter went to the Appeal court, where Luc Pawlyk was sustained. John Pawlyk then his solicitor H A Mackie K. C., commenced a new action against L Pawlyk for the return of certain goods and a judgment of \$1834.00. Geo J Bryan, acting for Luc Pawlyk, made an application last Monday before the Supreme court for an order striking out the new statement of claim. This order was granted by Mr Justice Ives, thus ending another phase of the dispute.

## Here and There

(410)

In its five years of operation as a subsidiary of the department of colonization and development, Canadian Pacific Railway, the Canada Colonization Association has placed 4,225 families on 856,000 acres of land in western Canada. Colonel J. S. Dennis, president of the association, submitted to directors at Winnipeg recently. The association has at present opportunities to settle 1,000 families on 332,698 acres in the prairie provinces.

Cash prizes exceeding \$200,000 will be offered at the World's Grain Exhibition and Conference to be held at Regina, August 1-15, 1932. The major prizes totalling \$75,000 will be for wheat. It is aimed to have field tests to verify the purity of the grain and also to have milling and chemical tests to establish quality.

Immigration to Canada during the six months April 1 to September 29, 1929, totalled 120,338, of which 51,781 were British; 20,769 from the United States; 21,991 from north-western Europe, and 25,987 representing 33 other races. Total immigration same period of 1928 was 123,712.

Official opening of the enlarged Empress Hotel at Victoria to which a huge addition has recently been completed at cost of approximately \$3,000,000 will be held December 21. It is announced by H. F. Mathews, general manager of Western Canadian Pacific Hotels.

Gold produced in Ontario in the first nine months of 1929 had a value of \$24,735,562; or in excess of a million dollars over value of production in first nine months of 1928.

Breaking all previous records for handling of Japanese oranges, a special Canadian Pacific Railway train consisting of 23 cars of the Oriental fruit, arrived at Winnipeg recently about 40 hours after leaving the coast, in time for the first Yuletide oranges to be on the market. The whole consignment from the coast consisted of 69 box cars holding a total of 8,250,000 of the Japanese delicacy.

About 2,800,000 fry and 340,000 eyed eggs, a total of 3,140,000 prospective fish, was the record output of the Banff hatchery this past season. The eggs were covered with difficulty by pack men of the Bear Creek Valley watershed of Lake Louise. The fry were widely distributed over western areas.

Statistics show an increase of 1,036 vessel arrivals in the Port of Vancouver for the first nine months of this year above the number for the same period last year. Net tonnage shows an increase of 251,643 tons inward while outward tonnage shows a corresponding increase. Grain in arrivals was made up by 22 more deep-sea vessels; 22 foreign coastwise; and 392 more local coastwise.

Editors representing the leading farm papers of the United States will tour Eastern Canada by special train next summer as result of a joint invitation extended to the American Agricultural Editors' Association at their annual convention recently held at Chicago, by representatives of the Canadian Government and the Canadian Railway. The tour of Canada will last fifteen days and will afford the visiting editors an opportunity to study the agricultural and industrial development of the provinces of Ontario, Quebec, New Brunswick, Nova Scotia, and Nova Scotia.
